

# NCI Wincor Nixdorf 4915™ Printer Solution

OS/2  
WIN 95/98/2000/NT

Wincor Nixdorf 4915

IBM 4720/4722

The **NCI Wincor Nixdorf 4915 Printer Solution** enables branches to enjoy the benefits of upgrading to the **Wincor Nixdorf HighPrint 4915** multifunctional document and passbook printer while supporting an IBM 4720/4722 printer in the same network. Dual support of both printers is provided seamlessly through the NCI UPD-4915 device driver.

A unique feature of this printer solution, called "Printer Hot Swap," permits the **Wincor Nixdorf HighPrint 4915** and an IBM 4722 printer to transparently coexist in the same branch network. This dual-support feature also allows these printers to be "hot swapped" during operation without turning off, or interfering with, PC workstation operation.

The **Wincor Nixdorf HighPrint 4915** offers a compact design and user-friendly features, such as automatic paper alignment, low noise, LCD display (32-digits, five languages), printer sharing, simple ribbon replacement and easy access, even in cases of paper jam.

The promising technology of the **Wincor Nixdorf HighPrint 4915** includes a 24-pin printhead and a flatbed printer.

The NCI device driver supports OS/2, Windows 95/98/2000/NT and Internet Explorer Web enabled workstation environments. The **NCI Wincor Nixdorf 4915 Printer Solution** enables the Wincor Nixdorf HighPrint 4915 printer to emulate an IBM 4720/4722 printer.

## Wincor Nixdorf HighPrint 4915 Highlights:

Print method:	Matrix printer with 24-needle head
Print font:	10, 12, 15, 17.1, 20 characters per inch
Column capacity:	229 mm maximum 90 characters per line at 10 CPI 135 characters per line at 15 CPI
Print speed:	230 characters per second (draft quality) 76 characters per second (better quality)
Power supply:	110 v or 230 v
Consumption:	65 watts, 170 watts maximum
Dimensions:	170 mm height, 380 mm width, 340 mm depth
Weight:	Less than 10 kg
Interface:	RS-232 serial or B Loop
Emulation:	Wincor Nixdorf 4905, IBM 4722, Olivetti PR50

# NCI Wincor Nixdorf 4915™ Printer Solution

## NCI Wincor Nixdorf 4915 Printer Solution Highlights:

- Printer hot swap capability permits seamless printer swapping in a mixed IBM 4722 and Wincor Nixdorf HighPrint 4915 printer installation.
- A single device driver allows for dual support of the Wincor Nixdorf HighPrint 4915 and an IBM 4722.
- Auto printer recognition with the ability to pass on printer type identification to the application program to selectively extend unique printing to a specified printer in a mixed printer installation.
- COM object based support provided for Web and Internet based applications using Internet Explorer browser front-end.
- Support for native OS/2 and Windows 95/98/2000/NT based applications.
- Built-in diagnostic and trace capabilities can be optionally turned on and off. This functions assists in quicker problem resolution and gathering of vital information about problems experienced in operation. The trace is outputted to a file that can be forwarded by e-mail or printed for analysis.
- An optional adapter is available to provide connectivity to an IBM 4700 B-Loop.

## NCI Wincor Nixdorf 4915 Printer Solution Benefits:

- Simplifies software distribution, configuration and support for an installation with mixed printer types. The single **NCI Wincor Nixdorf 4915 Printer Solution** provides seamless and integrated support for the Wincor Nixdorf HighPrint 4915 and an IBM 4720/4722 printer. The **NCI Wincor Nixdorf 4915 Printer Solution** allows the application to become device independent.
- Optimized IBM 4722 printer emulation for the Wincor Nixdorf HighPrint 4915 to offer application plug and play in a mixed printer installation.
- Printer hot swapping capability permits easy exchange of printers without software installation considerations and with minimum or no impact to workstation operation. No PC workstation or PC server reconfiguration or restart is necessary.
- NCI offers single-vendor support and responsibility with the ability to offer both the **NCI Wincor Nixdorf 4915 Printer Solution** and the Wincor Nixdorf HighPrint 4915 printer as a bundled solution.
- The modular design of the **NCI Wincor Nixdorf 4915 Printer Solution** enables NCI to easily accommodate special and customized printing requirements.
